Data Scientist / ML Engineer

Experience: 4 years

Professional Summary

Data scientist with expertise in machine learning and statistical analysis. Proven track record of building predictive models that drive business decisions.

Technical Skills

Python • Machine Learning • TensorFlow • PyTorch • Pandas • NumPy • Scikit-learn • SQL • Data Visualization • Statistics

Professional Experience

- ML Engineer at AI Innovations (2022-Present): Developed deep learning models for image recognition with 95% accuracy
- Data Scientist at Analytics Co (2020-2022): Built recommendation systems and customer segmentation models
- Data Analyst Intern at BigTech (2019-2020): Performed statistical analysis and created data visualizations

Education

M.S. Data Science, UC Berkeley
